

DEFENSE INDUSTRIAL BASE VULNERABILITY DISCLOSURE PROGRAM (DIB-VDP)

The DIB-VDP offers defense contractors* **confidential vulnerability discovery, validation, and mitigation verification** for voluntarily submitted publicly accessible web assets. No data is shared externally. This service is managed via an established turn-key report management platform, leveraging specialized scripts and proof-of-concept exploits to minimize false positives.

*Companies working in support of the DIB, and within 32 CFR pt. 236, are eligible to participate in this voluntary program.

DIB-VDP PROVIDES

Additional Security Layer

Proactive Discovery Notifications

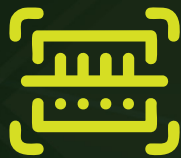

Expert Ethical Researcher Analysis

Crowdsourced Researcher Community

EXTENDING EFFORTS BEYOND SCANS

Our researchers, tools, and testing will identify vulnerabilities that scans often will not.

STREAMLINED PROCESS

Our well-defined and DoD-proven process simplifies vulnerability disclosure.

PROCESSED CY25

MITIGATIONS FOR CY25

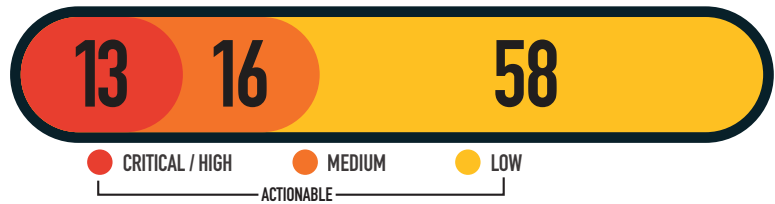

- 128 Successful Mitigations (Including Top 5 Organization Data)
- 29 Unsuccessful Attempts

TOP VULNERABILITIES/CWE'S CY25

CWE-200 INFORMATION DISCLOSURE INFORMATION DISCLOSURE 21
 CWE-657 VIOLATION OF SECURE DESIGN PRINCIPLES 21
 CWE-79 CROSS-SITE SCRIPTING (XSS) 14
 CWE-601 OPEN REDIRECT 7
 CWE-285 IMPROPER AUTHORIZATION 5

SEVERITY FOR THE YEAR

CY25 RETURN ON MITIGATION

\$2MIL*

MITIGATED LOSS
(EARLY DETECTION AND ESCALATION)

Mitigated losses assuming each found vulnerability is exploited once per year.**

\$97.7MIL*

WORST-CASE MITIGATED LOSS
(BREACH)

Based on Single Loss Expectancy (SLE), Annual Rate of Occurrence (ARO), and vulnerabilities found for the selected assets.**

*Estimated based on the 2025 IBM Cost of a Breach Report and the 2025 Verizon Data Breach Report.

**Comparison is to the same timeframe of the previous year (or offset by one year if more than one year is selected).
